

Pureflow inc.

Pursuing Excellence
in High Purity Water
Since 1985

Providing Peace of Mind

At Pureflow, dependable service is not only our trademark; it is our foundation, our cornerstone and your peace of mind. As part of our service and support, we offer several maintenance options to suit your company's needs and budget. These service plans can include scheduled and emergency situations that may arise.

Pureflow's Technologies Include:

- Pretreatment and Filtration
- Reverse Osmosis
- Deionization
- Electrodeionization
- Ultraviolet Technology
- Ozonation
- High Purity Piping and Storage
- Controls and Instrumentation

When it comes to high purity water, Pureflow partners with you in achieving your specific product quality.

Our services include:

- ◆ **Portable Exchange DI**
- ◆ **Remote Monitoring**
- ◆ **Preventive Maintenance**
- ◆ **24-hour On-call Service**
- ◆ **OSHA Certified Technicians**
- ◆ **RO Cleaning**
- ◆ **Media Rebed**
- ◆ **Mobile Services**
- ◆ **Custom Engineering**
- ◆ **Educational and Technical Training**

Pureflow has been a leader in the high purity water market since 1985. We provide quality, cost-effective solutions to meet your specifications. Not only can we provide emergency and supplemental water support, we can also design, build, install and maintain a high purity water system to meet your needs. Pureflow's professional service technicians are trained to ensure your system will deliver years of dependable high purity water.
